

# THE COMPLETE DUCT HEATER SOLUTION

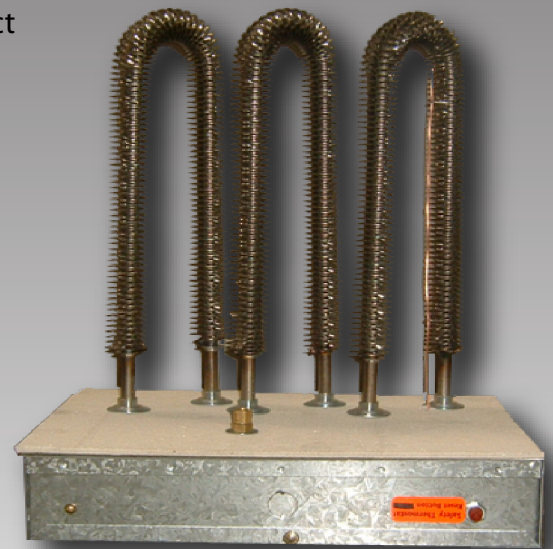

Thermal can offer you a complete solution to your duct heating installation. We can supply the whole duct section saving you hundreds of dollars in on site costs!

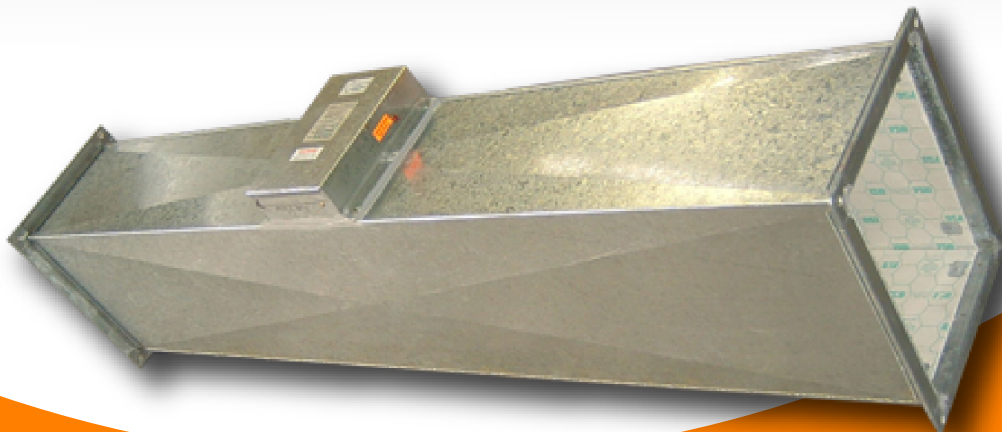

The unit is completely assembled and easy to slot straight in to your duct work. They come complete with:

- Internal Insulation
- Electric duct heater inserts (including terminal box and safety's)
- Spigots, TDF flanges or Slides
- Stage switching and contactors
- Pre-wired if required

Normally each part of the duct heater would have to be organised through different suppliers. A company for the elements, a company for the duct section, and someone to wire it on-site. By ordering the completely pre-assembled unit from Thermal you'll save time and money knowing the unit is connected and working, all you have to do is insert it into your existing ductwork!

Thermal will tailor-make each unit to suit your specifications and all work meets Australian Industry Standards. Call us now for more information or a free quote
